

# Wake ElectriConnection

"The power to make a difference"

For members of Wake Electric Membership Corporation

AUGUST 2013

## "Give Us an A" Program Awards \$25 Visa Gift Cards to High Achievers

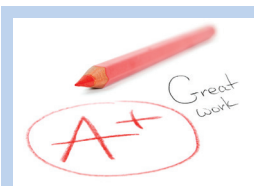

Wake Electric recently awarded 40 \$25 Visa gift cards to area students who received at least one "A" (or its equivalent) on their report cards through the co-op's "Give Us an A" program. This program encourages academic achievement and Wake Electric encourages the winners to purchase a savings bond through [www.treasurydirect.gov](http://www.treasurydirect.gov) with their Visa gift card money. These awards are part of a drawing held three times a year.

Students in any grade in Durham, Franklin, Granville, Johnston, Nash, Vance and Wake counties are eligible to apply.

Funding for the "Give Us an A" program is made possible by Wake Electric members through the Operation RoundUp program. Members who sign up to participate in the Operation RoundUp program elect to have their monthly electric bill rounded up to the next whole dollar. These pennies collectively add up to major dollars for community programs.

Find the most recent "Give Us an A" winners in the chart to the right.

NAME	SCHOOL
Emily Berrier	North Raleigh Christian Academy
Aislinn-Anne Brown	River Dell Elementary
Cullen Brown	Archer Lodge Middle School
Ethan Brown	Franklin Academy
Nicholas Brown	Franklin Academy
Wade Creech	Zebulon GT Magnet Middle School
Sarah DeBruhl	Bunn Middle School
Hunter Dickerson	Heritage Middle School
Kaitlin Dodge	Wakefield High School
Edward Isabella	Franklinton High School
Brianna Flamion	Butner-Stem Middle School
Teliza Henderson	Franklinton High School
Matthew Hoffman	Cedar Creek Middle School
Taryn Hoffman	Franklinton High School
Anna Huseboe	Sandford Creek Elementary
Evan Huseboe	Ravenscroft Upper School
Louis Isabella, III	Franklinton High School
Cameron Jarvis	Heritage High School
John Latz	Heritage High School
Kevin Martin	Franklinton High School
Kelsey Middleton	North Raleigh Christian Academy
Shawn Montren	South Granville High School of Health and Life Sciences
Jake Moody	West Millbrook Middle School
Max Moody	Endeavor Charter School
Drew Mormann	Franklin Academy
Amy Nguyen	North Ridge Elementary School
Makaya Parham	Brentwood Elementary School
Anna Pollock	Glendale- Kenly Elementary School
Emily Roland	Franklin Academy
Phoebe Rutter	G C Hawley Middle School
Andrew Sample	Franklinton High School
Elizabeth Sample	Franklinton High School
Stephanie Sample	Franklinton High School
Emily Sandberg	Franklin Academy
Hannah Skaff	North Raleigh Christian Academy
Hannah Stuttts	Franklinton High School
Corbin Smith	Wakefield High School
Jade Webb	Mary Potter Middle School
Jessica Weber	Franklin Academy
Taylor Weber	Franklin Academy

### To enter, students should include:

- ★ A copy of the report card with any "A"s highlighted
- ★ Parents' or guardians' names (if applicable)

- ★ Home address
- ★ Email address that is checked regularly
- ★ School attending
- ★ Telephone Number

The deadline for the next drawing is September 20, 2013, by 5 p.m.

*NOTE: Because each school district may have a different time for issuing report cards, if a student's entry misses one deadline, the entry will automatically be included in the next drawing.*

# Teachers!

Apply for Bright Ideas Grant by Aug. 16 for Chance to Win \$500 Visa Gift Card

It pays to apply early! The deadline to submit Bright Ideas education grant applications for the 2013–2014 school year is Thursday, September 12, but teachers who submit their application by the early bird deadline on Friday, August 16, will be entered in a drawing to win a \$500 Visa gift card.

To learn more about the program and start an online application, visit [www.ncbrightideas.com](http://www.ncbrightideas.com) or [www.wemc.com/brightideas.aspx](http://www.wemc.com/brightideas.aspx).

## APPLY FOR A CLASSROOM TECHNOLOGY GRANT

Don't forget! Local teachers can also apply for a Classroom Technology grant, also due on Thursday, September 12. Go to [www.wemc.com/classawards2.aspx](http://www.wemc.com/classawards2.aspx) to learn more.

## Wake Electric Warns of Scam Targeting Spanish-speaking Members

Wake Electric is warning members that thieves posing as cooperative employees are trying to steal your money and personal information.

The scammers call customers whose primary language is not English, most of the time targeting Spanish speakers, and tell them that their electricity will be disconnected unless they send payment immediately. The scammers are instructing these cooperative members to purchase a pre-paid credit card and either send it to a predetermined address or provide the information from that card over the phone.

Please note that Wake Electric would never, under any circumstance, contact you to obtain account or personal information. If you ever doubt the identity of someone claiming to represent Wake Electric over the phone, please hang up and call our office using the phone number listed on your bill or another official document.

Wake Electric urges its members to be aware of this scam and asks that members share this information with family and friends to help put a stop to it.

## Labor Day Holiday Closing

Wake Electric's offices will be closed on Monday, September 2, in honor of Labor Day. For emergencies, please contact us at (919) 863-6300 or 1-800-474-6300.

## ENERGY EFFICIENCY TIP

When shopping for a new appliance, consider lifetime operation costs as well as the up-front purchase price. Refrigerators last an average of 12 years, clothes washers about 11, and dishwashers about 10. Check the Energy Guide label for the appliance's estimated yearly operating cost, and look for ENERGY STAR units, which usually exceed minimum federal standards for efficiency and quality. To learn more, visit [EnergySavers.gov](http://EnergySavers.gov).

# Check Out New “Green Button” for Even More Detailed Electric Usage Data

Have you noticed the Green Button logo within your online SmartHub account? Green Button is a U.S. Department of Energy-sponsored effort to develop a national standard for downloading detailed electric usage data so you can easily access your data or share it. Sharing this data with, for example, other family members may help you decide together how to better manage your electric usage.

While Wake Electric’s Monitor & Manage program, with its monthly, daily and hourly electric usage charts will be sufficient for most members, Green Button is now available for members who want even more detailed data and who desire the ability to download that information.

Imagine a future when the first question by a home improvement sales associate is, “Can you send me your Green Button data?” Or, envision asking a solar panel contractor to propose an optimal installation for your home and getting the same Green Button question.

For another example of what

Green Button can offer, let’s say you wish to analyze statistics to determine whether your new high-efficiency heat pump is meeting your expectations. Green Button can supply the detailed data. If you want to take Green Button one step further, you can provide your energy use data to a third-party application (app) designed to help you make choices about how much energy to use. The Open Energy Info (EI) non-profit website maintains a list of currently active Green Button approved apps you can use. To see the list, visit [openei.org/apps](http://openei.org/apps) and click on Green Button apps box.

Major electric utilities all over the country are beginning to adopt Green Button. Wake Electric is the first and only electric utility in North Carolina to offer the Green Button data interface (at time of press).

There are no additional charges for Green Button downloads. You can download as much of your available data as often as you like. For more information, go to [www.greenbuttondata.org](http://www.greenbuttondata.org).

## GREEN BUTTON INSTRUCTIONS

To download your Green Button data, go to <https://wemc.smarthub.coop/> and click the “Green Button” icon within your SmartHub account. Review the instructions and click on the “Green Button-Download My Data” button. A pop-up will appear, and you can then select your report criteria, including:

- ★ Your account and service location that you would like to download
- ★ Start and end dates for the data you would like to download (up to 13 months of data)
- ★ The time interval to download—monthly, daily or hourly

After making your selection, your usage data will be downloaded in a zipped XML file format. To retrieve data from your zipped file, right click on the folder location and select “Extract All Files.” When the files are extracted, open the XML file. (Note that the exact steps of your download may vary depending on your Web browser and download settings.)

## FYI ON NEW VERSION

Green Button developers are working to release a more intuitive version of this exciting new application this fall. It will make the download process even more streamlined. Stay tuned!

**Green Button**

**What is Green Button?**  
Green Button is a national, government-led initiative that gives customers easy and secure access to their personal energy use data. After downloading your usage data, you can view it in your internet browser, or upload it to any third party site that supports Green Button data analysis. Information you will be able to view with your usage data includes a summary of your electricity usage over the time frame you specify when downloading your usage—up to 13 months.

**How do I download my Green Button data?**  
To download your usage data, click the “Green Button Download My Data” button below. A popup will appear, and you will select your report criteria. The criteria you will choose include:

- Account and Service Location that you would like to view the usage for.
- Start and End dates for the usage you would like to view. This can be up to 13 months of data if it is available for your account.
- The time interval to view your data—Monthly, Daily, or Hourly.

After making your selections, click the “Download Usage Data” button. This will download your usage data in a zipped XML file format. You can extract the data from the zipped file for your own use using the instructions provided below, or upload it to any third party site that supports Green Button data analysis.

To retrieve data from your zipped file:  
Right-click the folder and select Extract All Files. When the files are extracted, open the XML file. Note that the exact steps of your download may vary depending on your Web browser and download settings.

**Green Button Download My Data**

**How do I use my data?**  
After you download your zipped usage data file, you may extract the files and view them in their original XML format in a Web browser, or you can upload your data to any third party site that supports Green Button data analysis. Reviewing your detailed energy usage information will allow you to recognize usage patterns and possibly help identify times you can try to cut back on energy consumption, saving both money and electricity.

**What are the benefits of using Green Button?**  
Green Button can help you manage your energy consumption by providing you with a detailed breakdown of your usage data. After viewing your consumption, you may be better able to manage your energy usage habits and potentially lower your electricity bill.

**What information will I see in my Green Button data file?**  
After you extract the files from your zipped file, you will have both an XML file and XSL file available. The XSL file simply supports the XML file, so you will only open the XML file. Opening the XML file will bring your usage data up in a Web browser.  
**Note:** Some browsers, such as Chrome, may have security restrictions in place to not allow the file to be opened. You may try to open the XML file in a different browser, or use an XML viewer.

**Is my usage data secure when I download through Green Button?**  
Yes. Green Button is accessed through your SmartHub account, which you must first log into using your username and password, creating a secure connection. Your personal energy usage data only becomes available to a third party if you choose to upload it to one of their sites. If you would like to learn more about our privacy policy, please contact us.

# Wake Electric Has Money To Return to Former Members

**B**ecause Wake Electric is a not-for-profit utility, when we make money beyond our operating costs, we return that money to our members in the form of "capital credits." Because the formula for distribution is based on prior years of operation, often customers who

are entitled to capital credits have moved and it is difficult to locate them. If the U.S. Postal Service returns a capital check to us, we make every effort to locate the person entitled to the check. The following is a list of people who have had their checks returned to us

because their address is not correct. If you see your name or the names of family, friends or associates, please have them contact Wake Electric at 1-800-474-6300, 919-863-6300, or email us at [information@wemc.com](mailto:information@wemc.com). You can also visit our website for the names at [www.wemc.com](http://www.wemc.com).
